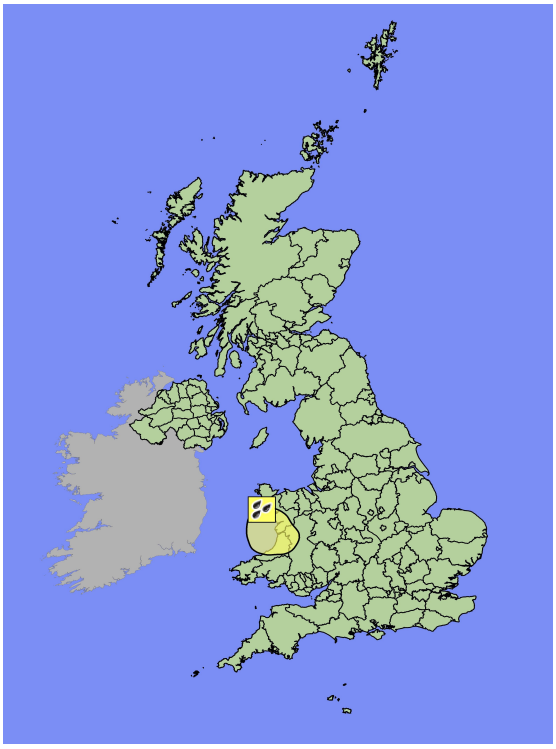
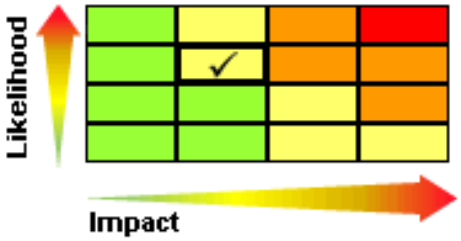
National Severe Weather Warning Service





Chief Forecasters Assessment
A deep area of low pressure is expected to bring strong winds and heavy rain to parts of England and Wales during Thursday and Friday. The rain is expected to be particularly heavy and persistent across western parts of Wales during Friday. Around 20 to 30 mm of rain is expected to fall widely, with perhaps as much as 60 mm in a few locations.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **00:00 on Fri, 08th Jun 2012** until **23:59 on Fri, 08th Jun 2012**

Rain, accompanied by a strong to gale force westerly wind, is expected to turn increasingly heavy and persistent during Friday across some western parts of Wales. The public should be aware of large amounts of surface spray on roads and some areas of minor flooding.
